Summary

I am a seasoned, detail-oriented, Mobile & front-end engineer. I have 7 years of experience with many programming languages, frameworks, and platforms. I specialize in frontend development, and full-stack development - Javascript/Typescript, React.js, Vue.js, Next.js, Node.js, Nest.js, Django, ROR.

I have a proven track record of successfully analyzing, architecting, and solving difficult programming problems.

Experience

Frontend Developer / Technical Advisor

KeeperAI

May 2022 - Sep 2022 (5 months)

KeeperAI is a SAAS based product company offering a unique way to connect people in organisations. It focuses on showcasing the Soft-Skills of an individual and allow them to connect to their peers having common interest or affinity. Using AI ML the platform access the personality score and their alignment with the mission statement of the organisation.

Build a team of developers to work on KeeperAI app, deliver KeeperAI integration with Microsoft Teams and other integrations.
